| Product Name        | Glutathione Powder                             | Product Code      | GTT400        |
| Pack Size           | 400 mg × 10 vials                              | Batch No.         | 26031978-03   |
| CAS No.             | 70-18-8                                        | Molecular Formula | C10H17N3O6S   |
| Mfg. Date           | Jun. 15, 2026                                  | Retest Date       | Jun. 14, 2028 |
| Product Class       | Synthetic Research Compound                    | Molecular Weight  | 307.32 Da     |
| Sequence / Identity | gamma-Glu-Cys-Gly / L-Glutathione reduced form |                   |               |

| [ TEST ITEM ]        | [ SPECIFICATION ]                                    | [ RESULT ]         |
|----------------------|------------------------------------------------------|--------------------|
| Appearance           | White to off-white lyophilized powder                | Complies           |
| Identity             | HPLC/LC-MS identity method per product specification | Identity confirmed |
| Purity (HPLC)        | NLT 98.0%                                            | 99.950%            |
| Acetic acid          | NMT 0.5%                                             | Not detected       |
| Trifluoroacetate     | NMT 0.5%                                             | Not detected       |
| Ammonium ion         | NMT 8.0%                                             | Not detected       |
| Water content (KF)   | NMT 5.0%                                             | 4.980%             |
| Assay / Content      | NLT 80%                                              | 86.450%            |
| Residual solvents    | Methanol NMT 3000 ppm; Ethanol NMT 5000 ppm          | Not detected       |
| Bacterial endotoxins | NMT 10 EU/mg                                         | Complies           |
| Microbial limits     | TAMC NMT 100 cfu/g; TYMC NMT 100 cfu/g               | Complies           |

Conclusion: This batch complies with the approved internal quality specification.

Storage: Store in an airtight container, protected from light; short term: 2–8°C; long term: below -10°C. Retest date is valid only when stored under recommended conditions in unopened original packaging.

For research and development use only. This document is provided for product quality reference and is not intended for clinical or diagnostic use.

Testing performed under PeptiCore internal quality control procedures unless otherwise specified.

N.D. / Not detected: Below method detection limit.
